

### About Yogurtopia

From the modern lighting and sleek white countertops, to the rich dark woods and playful murals of mascot Miley the cow and her farmland friends, walking into a Yogurtopia, guests quickly realize: this isn't your average frozen yogurt shop.

Yogurtopia's multifaceted design and diverse menu make for the perfect oasis all year round, whether it's to snuggle up next to the fireplace with a cup of espresso and one of their mouthwatering crepes, or to drop by with the baseball team to treat yourselves to some frozen yogurt after winning a big game.

The menu includes Yogurtopia's all-natural custom blend of self-serve frozen yogurt and toppings, as well as several other in-store options such as crepes, 100 percent organic and fair-trade coffee and espresso, 100 percent organic smoothies and fresh baked goods, some of which are gluten-free, lactose-free and vegan.

Guests can delight in all of Yogurtopia's scrumptious treats, knowing that every item on the menu is made with whole, healthy ingredients that are good for both our health and environment. Yogurtopia's frozen yogurt is packed with ten-times the amount of probiotics found in other frozen yogurts, and words like fair-trade and organic are the standard here.

Yogurtopia strives to be an integral part in its communities, promoting health and education, and providing memories and yummy treats. Founded in 2010 by Dearborn, Michigan-native Sam Abbas, Yogurtopia has grown to offer 4 locations throughout Arizona and Michigan. Delivering quality, comfort and affordability...Yogurtopia is here to create *The Perfect World*.
